REMARKS/ARGUMENTS

Fig. 1 has been amended to add a dot-dashed line III - III to make it clear how the sectional view of Fig. 3 is shown. It is noted that only one gill 5 is above the projection 9 and this gill 5 is covered by the projection 9 in Fig. 2. Fig. 3 shows a partially sectional view along the dot-dashed line III - III.

In view of the foregoing as well as the arguments in the amendment dated December 30, 2005, reconsideration and allowance of claims 1-6 are solicited.

In the event the Examiner should still find any of the claims to be unpatentable, counsel would appreciate a telephone call so that, if possible, patentable language can be worked out.

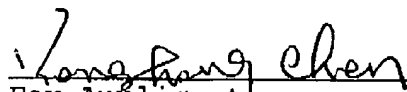

If an extension of time for this paper is required, petition for extension is herewith made. Please charge any fees which might be due with respect to 37 CFR Sections 1.16 and 1.17 to
